Your Online Booking Form and Holiday Web Page

Our IT team will prepare a bespoke booking form which will be provided via our online booking platform on your dedicated https web page.

Your web page and booking form will showcase your resort and accommodation and detail exactly what is included in your holiday.

The form requests all the information required to allow us to effectively organise the holiday and thereby minimise the work load for the group organiser.

A separate form should be submitted for each person travelling and it should only be completed by an adult, so this will be a parent or guardian for students and those under 18 years. Links will be provided to our Terms & Conditions and Privacy Policy so that all the relevant information is provided before booking.

Once submitted, a confirmation will be sent describing next steps and any payment instructions.

Whether payment is via the school or direct collection by The Ski Company, the next steps will be clear, again reducing the work load for the group organiser.

In short, the school can be involved with the booking process as much or as little as they want or need to be and parents will have full transparency on the holiday details and payments required, thereby reducing the likelihood of any surprises further down the line.

Any funds received towards the trip are put in a holding account until the trip has returned for further peace of mind.
